## ACCOUNTANT

---

Date First Published: 02 March 2020

We are looking for a self-motivated team player who will be responsible for the full accounting function up to management accounts level to support accurate and timeous reporting. This position reports to the Group Accountant and is based at our offices in **Somerset West, Western Cape.**

**Key responsibilities include:**

- Compile monthly trial balance and/or expense reports for the assigned companies
- Review year to date management accounts for reasonability and completeness
- Liaise with stakeholders to ensure accurate information is loaded onto the Accounting system (Sage 300)
- Analyse the forecast income statement for reasonability and support the management accountant where required
- Monitor that monthly and annual financial results are in line with Group requirements
- Maintain the General Ledger and up to date balance sheet reconciliation book
- Implement various financial control processes to identify risk and enable an efficient financial control process

**Requirements:**

- Matric with Accounting Degree (Additional qualification after degree will be advantageous)
- SAIPA/SAICA articles or 5 years' experience in a similar role
- Advanced Excel skills
- Advanced knowledge of accounting principles
- Basic knowledge of IFRS
- Sound knowledge VAT/Income tax
- Sage 300 or other similar accounting package
