

Fruitways is an agri-business that specialises in the growing, packing and marketing of apples and pears to retailers, traders and wholesalers around the globe.

MECHANICAL MAINTENANCE TECHNICIAN

Date first published: 04 December 2018

This career opportunity is available for a technical orientated individual who is passionate about mechanical maintenance. Reporting to the General Manager: Operations, you will be based at our Valley Packing Division in Grabouw and work closely with all departments.

Responsibilities:

- Develop and implement maintenance plans for the plant.
- Plan and manage the annual maintenance budget and capital expenditures.
- Repair and maintenance of fruit packing machinery and equipment.
- Coordinate and implement plant improvements to reduce wastage or damage to produce.
- Manage subordinates to ensure effective service levels and minimal plant downtime.
- Manage safety standards within department, according to the OHS Act.

Requirements:

- Minimum N4 Level qualification and approved apprenticeship.
- 5 years' Mechanical Maintenance experience within a medium to large production facility.
- Organising and planning skills.
- Good communication and Excel skills.
