## QUALITY ASSURANCE SUPERVISOR – Fruit Receiving

---

Date first published: 09 September 2021

We are looking for a self-disciplined, independent individual who is focused on producing high quality, detailed work within a team environment. Reporting to the Quality Assurance Manager, you will be based at the **Valley** packing operation, part of our **Packing Division**, in the **Grabouw** area.

**Responsibilities:**

- Manage the fruit quality processes with regards to fruit receiving and storage processes.
- Collect and interpret fruit quality data and report deviations.
- Review fruit quality data and report on relevant trends.
- Oversee and ensure compliance to quality and food safety standards, including BRC.
- Supervise a small team of quality control personnel.

**Requirements:**

- Tertiary qualification in Fruit technology or related field.
- Driver's license and own transport
- Previous work experience in post-harvest fruit handling or fruit production environment will be beneficial.
- Exceptional attention to detail.
- Effective communication and computer skills.
