## ELECTRICIAN

---

Date first published: 24 October 2018

We have an exciting career opportunity for a **Site Electrician** based at our **Molteno Packhouse in Grabouw**. Reporting to the Operations Manager, the ideal candidate needs to have a technical problem-solving approach and the ability to work unsupervised.

### Responsibilities:

- Perform daily, weekly and monthly maintenance inspections according to prescriptive schedule.
- Repair electrical breakdowns of packing and juice plant machinery/equipment and cold store facilities.
- Plan and execute annual preventative maintenance program.
- Disassemble and replace defective electrical equipment or worn parts and reassemble equipment.

### Requirements:

- Minimum N3 Electrical Diploma with Section 28 Trade Test.
- Wiring license will be beneficial.
- Knowledge of the mechanical workings of machinery and equipment.
- Preferably 1 years' experience within a production facility.
- Good understanding of the OHS Act.
- Willingness to work nightshift during season.
